PROFESSIONAL SUMMARY

Game Designer with 5+ years of experience in mobile games, specializing in content design, level design, LiveOps, and game balancing. Experienced in designing gameplay mechanics, quest systems, and progression, with end-to-end ownership of playable content from concept to release. Contributed to Fishdom, Atlantis Odyssey, Manor Matters, and Mystery Matters.

CORE EXPERTISE

- **Game & Content Design:** Level and location design, event and expedition design, quest chains, narrative content, feature design
- **LiveOps & Balancing:** Event progression, difficulty curves, reward balancing, Battle Pass, Season Shop, micro-goal systems
- **Production & Documentation:** GDDs, design specifications, cross-functional development, QA coordination, asset integration, onboarding and mentoring
- **Tools:** Tiled, Unity, Jira, Asana, Confluence, Figma, Miro, Git, VS Code; proprietary level editors

PROFESSIONAL EXPERIENCE

PLAYRIX — Location Designer | Project: Fishdom
February 2025 – Present

- Built and implemented in-game locations using a proprietary editor, translating blockouts and visual assets into playable environments.
- Adapted location layouts, topology, and assets to evolving gameplay requirements and mechanics.
- Created internal documentation and guidelines to standardize location implementation workflows.

VIZOR GAMES — Game Designer | Project: Atlantis Odyssey
August 2022 – February 2025

- Independently designed and delivered 15+ expeditions from concept to release, including gameplay mechanics, quest chains, narrative, maps, and cutscenes. Contributed to 40+ additional expeditions through redesign, implementation, and launch.
- Designed gameplay challenges, including multi-layered path blockers and complex crafting chains, to extend late-expedition progression and encourage sustained player engagement.
- Integrated new locations and content into existing game features, collaborating with art, engineering, and QA teams.
- Balanced LiveOps events, progression, difficulty curves, and rewards across Battle Pass, Season Shop, and micro-goal systems.
- Proposed gameplay improvements, prepared GDDs, and participated in A/B testing and post-release content support.
- Mentored 5+ game designers and contributed to internal workflows and design documentation.

VOKI GAMES — Level Designer | Projects: Manor Matters, Mystery Matters
February 2021 – May 2022

- Designed and implemented hidden-object levels for two HOPA titles, including object lists, placement, and difficulty balancing.
- Contributed to gameplay mechanics, level features, in-game text, and design documentation.
- Collaborated with artists, engineers, animators, and QA throughout level production.
